November 2002

The winter baseline season began on November 1. Your total baseline quantities shown were calculated using your daily winter baseline quantities starting November 1 and your daily summer baseline quantities for any days in your billing period prior to November 1.

Remember: PG&E's gas prices change monthly to better reflect changes in the cost of gas. Gas prices are usually higher in winter and lower in summer, as demands change. If you wish to average your bills over the year, our Balanced Payment Plan is available.

As a master-metered customer with CARE qualified tenants, this bill has been calculated using oth CARE and non-CARE rate schedules. You are required to bill all the usage of the CARE-qualified tenants using the reduced CARE rate schedule.
