

SB 1383 - California's Compost & Recycling Law for Businesses and Multifamily Properties

EFFECTIVE JANUARY 2022

WHAT DOES THIS LAW MEAN FOR MY BUSINESS OR MULTIFAMILY PROPERTY?

- All sites must have compost and recycling collection service.
- Compost and recycling bins must be placed next to all garbage bins, including indoors, except in restrooms. Items must also be properly sorted into the bins.
- Free help and indoor green bins are available.
- Large businesses that generate surplus edible food—such as grocery stores, food distributors, and large restaurants—must donate food to food recovery organizations.

SB 1383 - California's Compost & Recycling Law for Businesses and Multifamily Properties

EFFECTIVE JANUARY 2022

When compostable materials like food scraps, paper, and plant trimmings break down in landfills, they produce methane, a potent greenhouse gas and contributor to climate change.

California state law (SB 1383) will help keep compostable materials out of landfills. In Alameda County, the Organics Reduction & Recycling Ordinance is in place to help residents and businesses comply with the regulations set by the state.

The local law is implemented through a partnership between the City of Livermore, Livermore Sanitation, StopWaste, and Alameda County Environmental Health Departments.

Placing food scraps in the compost bin instead of the garbage helps fight climate change.
